Introduction

The *Missouri Juvenile and Family Division Annual Report* provides a comprehensive account of both case activity and youth served for calendar 2018. This report presents general population data for Missouri youth; summary statistics on the youth referred for status, law, and abuse and neglect to Missouri's juvenile division; the risk and needs characteristics of the juvenile offender population; detention and DYS populations; recidivism rates; certifications of juveniles to adult court; disproportionate minority contact rates; Juvenile Officer Weighted Workload; time standards for child abuse and neglect cases; self-reported compliance rates for the recently adopted Juvenile Officer Performance Standards; and Juvenile and Family Division programs with participation rates.

The *Missouri Juvenile and Family Division Annual Report* is not possible without the help of Missouri's juvenile and family court staff. It is their commitment to improving outcomes for court involved youth and their families that ensures the integrity of the information reported here.

Section 1: Missouri's Youth Population

Section 1 describes the 2017 population of Missouri's youth (ages 10-17). This description provides a useful context for considering subsequent sections of the report related to a subset of youth involved with juvenile and family court divisions in Missouri [Source: Missouri Census Data Center].

Section 2: Juvenile & Family Division Referrals

The Missouri Juvenile Officer Performance Standards (2017) define a juvenile and family division referral as *“the initial information provided to the juvenile officer from the referring agency inclusive of the identifying information and basis for the jurisdiction of the juvenile court.”* For the purpose of annual reporting, unless otherwise indicated, disposed referrals represent the unit of measurement, not individual youth. A disposition refers to the outcome or finding of a referral [see pages 14-15 for details about how these dispositions are reported in Missouri’s Judicial Information System (JIS)].

The juvenile and family division is responsible for processing and supervising four referral types:

- **Status Offenses:** Status offense referrals include Behavior Injurious to Self/Others, Habitually Absent from Home, Truancy, Beyond Parental Control, and Status-Other.
Note: The following offenses were also counted as Status Offenses: Juvenile Municipal Ordinance violations, which are those municipal ordinance violations that are explicitly labeled with “JUVUNI” in the charge code
(<http://www.mshp.dps.missouri.gov/MSHPWeb/PatrolDivisions/CRID/documents/2016JuvenileChargeCodes.pdf>).
- **Law Offenses:** Law offense referrals include all criminal violations listed in the Missouri Charge Code Manual, including infraction and ordinance violations, except Juvenile Municipal Ordinance violations.
- **Child Abuse and Neglect (CA/N):** CA/N referrals are allegations of child abuse or neglect where the child is the victim or custody related matters are an issue. Abuse referrals include Abuse-Emotional, Abuse-Incest, Abuse-Other Sexual, and Physical Abuse. Neglect referrals include Abandonment, Neglect-Education, Neglect-Improper Care/Supervision, Neglect-Medical Care, Neglect-Surgical Care, and Neglect-Other. Custody referrals include Abduction, Protective Custody, Transfer of Custody, Termination of Parental Rights, and Relief of Custody.
- **Administrative:** Administrative referrals include Violation of Valid Court Order, Juvenile Informal Supervision/Technical Violation, and Juvenile Formal Supervision/Technical Violation.¹

Section 2 presents information on disposed referrals at the state level for the juvenile and family division in calendar 2018.

¹ Counts of Administrative referrals throughout this report include these additional violations: Prob / Parole Violation and Probation Violation (Municipal Ordinance). While not sanctioned for use on juvenile referrals, circuits have used these charge codes in calendar year 2018.

Section 2: Juvenile & Family Division Referrals

Table 2-1 Source of Referrals

Referrals to Missouri's juvenile and family division originate from a variety of sources. In CY18, 46% of all referrals originated from some type of law enforcement agency (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement), primarily municipal police [37%]. The Children's Division of Missouri's Department of Social Services accounted for 20% of all referrals. An additional 20% of referrals occurred at schools (School Personnel and Resource Officer).
Missing Data [504]

Source of Referral	Frequency	Percentage
Municipal Police	17,033	37.3%
Children's Division	9,390	20.5%
School Personnel	6,818	14.9%
County Sheriff	3,399	7.4%
School Resource Officer	2,496	5.5%
Juv Court Personnel	2,192	4.8%
Parent	1,560	3.4%
Other	1,004	2.2%
Other Juv Court	451	1.1%
Other Law Enforcement	298	0.7%
Private Social Agency	215	0.5%
Highway Patrol	146	0.3%
Other Relative	121	0.3%
Victim or Self	37	0.1%
Public Social Agency	32	0.1%
DMH	12	0.0%
Grand Total	45,204	100.00 %

Figure 2-1 Referrals by Referral Type

In CY18, a total of 45,708 referrals were disposed. The largest percentage [35%, 16,160] was for law violations. The rest of the referrals were divided between abuse / neglect allegations [32%, 14,461], status offenses [30%, 13,547], and administrative offenses [3%, 1,540].
Missing Data [0]

Note: Juvenile Municipal Ordinance violations are included with status referrals.

Total Referrals by Sex**Figure 2-2 Referrals by Sex**

For all the disposed referrals in CY18, males were responsible for 61% [28,042] and females for the remaining 39% [17,607].
Missing Data [59]

Total Referrals by Race**Figure 2-3 Referrals by Race**

Approximately, 70% [31,781] of all disposed referrals were for white youth and 26% [11,860] for black youth. Hispanic youth accounted for 2.7% [1,246], Asian/Pacific Islander youth accounted for .5% [222], and Native American youth accounted for 0.2% [111].
Missing Data [488]

Total Referrals by Age

Age	Frequency	Percentage
< 10	10,555	23.1
10	1,542	3.4
11	2,103	4.6
12	3,062	6.7
13	4,736	10.4
14	6,132	13.4
15	7,584	16.6
16	8,721	19.1
> = 17	1,257	2.8
Grand Total	45,708	100.0 %

Table 2-2 Referrals by Age

The youngest age group, under 10 years, was responsible for 23.1% [10,555] of all referrals. Youth aged 16, were responsible for the next largest proportion of referrals, [19.1%, 8,721], followed by youth aged 15, [16.6%, 7,584] and youth aged 14 [13.4%, 6,132].
Missing Data [16]

Section 2: Juvenile & Family Division Referrals

Figure 2-4 Youth Referral Trend

The total number of disposed referrals declined by 32% from 2008 to 2018. The trend shows the greatest decrease in delinquency referrals (-54%). While status referrals decreased (-21%), CA/N referrals increased (17%), and administrative referrals decreased (-25%) over that period. Since last year, there was a decrease in status referrals (-7%), CA/N referrals (-6%), delinquency (-8%), and administrative referrals (-22%).

Youth Referrals by Referral Type: 2008-2017

Figure 2-5 Youth Referrals by Sex

Disposed referrals declined more for males (-34.1%) than for females (-27.2%) from 2008 to 2018. However, between 2017 and 2018, the number of referrals of males declined -5.3% and referrals of females declined at a higher rate of -7.8%.

Youth Referrals by Sex: 2008 - 2018

Figure 2-6 Youth Referrals by Race

From 2008-2018, disposed referrals of black youth declined (-40%), disposed referrals of white youth declined (-28.3%), and disposed referrals of Asian/Pacific Islander youth decreased (1.3%). Disposed referrals of Hispanic youth increased (4.4%) and disposed referrals of Native American youth increased (19.4%).

Note: Asian/Pacific Islander and Native American youth are not displayed to maintain readability.

Youth Referrals by Race: 2008-2018

The juvenile and family division responds to referrals either through a formal or informal process. Through the formal process, a juvenile officer files a petition in the juvenile and family division to have a judge hear and determine the outcome of the allegations contained in the petition. Through the informal process, a juvenile officer determines the disposition of the allegations contained in the referral without filing a petition seeking formal judicial jurisdiction. The following referral dispositions are recorded on the ***Site Defined (COASITE)*** form of the ***Custom Docket Entry and Maintenance (CDADOCT)*** of JIS.

Formal Dispositions:

Allegation True, Youth Receives Out-of-Home Placement – A judicial action finding the allegation true. Youth is placed out-of-home with the Division of Youth Services (DYS), in foster care, with a relative, or with a private or public agency. [JIS Docket = DVPTN]

Allegation True, Youth Receives In-Home Services – A judicial action finding the allegation true. Youth receives services while remaining in his or her home. This disposition requires the youth to receive supervision through the juvenile division. [JIS Docket = DVPTN]

Allegation True, No Services – A judicial action finding the allegation true; however, the youth receives no services or supervision. [JIS Docket = DVPTN]

Allegation Not True – A judicial action which results in the termination of a juvenile case during the initial juvenile division hearing because the allegation is found not true. [JIS Docket = DVPTN]

Sustain Motion to Dismiss – A judicial action which results in a motion to dismiss the petition before the initial division hearing. [JIS Docket = DVPTN]

Juvenile Certified – Felony Allegation - A judicial action sustaining a motion to dismiss a petition to the juvenile division and allow prosecution of youth under the general law. [JIS Docket = DVPTN]

Informal Dispositions:

Informal Adjustment with Supervision: Any informal non-judicial activity that occurs without the filing of a petition and involves supervision of youth by written agreement and complies with Missouri Supreme Court Rules for an informal adjustment conference and the relevant contact standards contained in the Missouri Juvenile Officer Performance Standards. This disposition requires completion of the risk and needs assessment when the referral is for a status or delinquency allegation. [JIS Docket = VIAWS]

Informal Adjustment without Supervision: Any informal non-judicial activity that occurs without the filing of a petition and involves supervision of youth by written agreement and complies with Missouri Supreme Court Rules for an informal adjustment conference. Although services may be monitored, this disposition does not include direct supervision of a youth in accordance with the Missouri Juvenile Officer Performance Standards. However, because the disposition is applied on the basis of an informal adjustment conference, completion of the mandated risk and needs assessments is required when the referral is for a status or delinquency allegation. [JIS Docket = VIANIS]

Informal Adjustment, Counseled and Warned: Any informal non-judicial activity that entails no more than brief face-to-face, telephone, or warning letter with the intent to inform, counsel, and warn the youth and/or family regarding a referral received. No official informal adjustment conference, per Supreme Court Rule is held; therefore completion of the mandated risk or needs assessments is not required when the referral is for a status or delinquency allegation. [JIS Docket = DVCAW]

Transfer to Other Juvenile Division: A non-judicial activity where a youth's case file and associated records are transferred to another juvenile division for disposition. Depending on when this disposition is applied, an official informal adjustment conference and associated assessments may or may not occur. [JIS Docket = DVTJC]

Transfer to Other Agency: A non-judicial activity where a youth's case file and associated records are transferred to another agency (CD, DMH, DYS, or other public or private agency) for disposition. Depending on when this disposition is applied, an official informal adjustment conference and associated assessments may or may not occur. [JIS Docket = DVTA]

Referral Rejected: The referral is rejected because there is insufficient information for administrative action to proceed or the referral is found not true. No informal adjustment conference is conducted and no assessments are required. [JIS Docket = DVRIE – Insufficient information; DVRNT – Not True]

Youth Referrals by Action Taken**Figure 2-7 Youth Referrals by Action Taken**

In CY18, 73% [33,284] of all referrals were disposed through the informal process. Only 26% [11,911] of referrals required formal court intervention.

Missing Data [513]

Total Referrals by Disposition**Figure 2-8 Youth Referrals by Disposition**

Informal Adjustment, Counseled and Warned [17.4%, 7,955], Informal Adjustment, With Supervision [15.9%, 7,252] and Informal Adjustment, Without Supervision [14.8%, 6,786] were the most frequently used method of disposing referrals. Allegation Found True with Out-of-Home Placement [16.8%, 7,655] was the most frequently applied formal disposition, followed by referrals where supervision was applied as an in-home service [5%, 2,584].

Missing Data [513]

Section 3: Law Violation Referrals

Section 3 describes law violation referrals disposed by Missouri's juvenile and family division. Law violation referrals made up 35% of all referrals disposed in calendar 2018. A law violation referral is counted as a single delinquent act represented by the most serious allegation charged (misdemeanor or higher). However, multiple delinquent acts may be associated with a single referral. **Note:** Infractions and municipal ordinances are included under law violations. Juvenile municipal ordinances are listed under status offenses.

Table 3-1 Source of Law Violation Referrals

The source of 81% of law violation referrals was some form of law enforcement agency (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement), primarily municipal police [66%] and county sheriff departments [12%]. Schools were the second highest referring agency [15%] (School Personnel and Resource Officer combined).
Missing Data [79]

Source of Referral	Frequency	Percentage
Municipal Police	10,728	66.4 %
County Sheriff	1,970	12.2 %
School Resource Officer	1,722	10.7 %
School Personnel	657	4.1 %
Children's Division	226	1.4 %
Other Law Enforcement	213	1.3 %
Juv Court Personnel	160	1.0 %
Other Juvenile Court	138	0.9 %
Highway Patrol	111	0.7 %
Parent	86	0.5 %
Other	46	0.3 %
Victim or Self	9	0.1 %
Other Relative	7	0.0 %
Public Social Agency	4	0.0 %
Private Social Agency	3	0.0 %
DMH	1	0.0 %
Grand Total	16,160	100.00 %

Figure 3-1 Law Violation Referrals by Charge Level

Class A misdemeanors accounted for most of the law referrals [37%, 6,017], followed by Class B misdemeanors [14%, 2,334]. Felonies represented 27.5% of law referrals, with Class D being the most common type of felony referral [12%, 1,997]. Five percent of all law violations were for Class A and B felonies [335 & 452].
Missing Data [0]

Law Violation Referrals by Charge Level

Law Violations by Charge Level and Sex**Figure 3-2 Law Violation Referrals by Charge Level and Sex**

Law violations at the misdemeanor level were the most common allegation for both male and female offenders. However, within sex, the percentage of referrals for misdemeanors was higher for females [79%, 3,532] than for males [66%, 7,651]. Conversely, males were referred at a higher rate [31%, 3,614] for felonies than were females [18%, 825]. Missing Data [13]

Law Violations by Charge Level and Race**Figure 3-3 Law Violation Referrals by Charge Level and Race**

Misdemeanor was the most common charge for all law violations. However, within race, the percentage of felony referrals was higher for youth of color than white youth: Black youth [32%, 1,701], Asian/Pacific Islander youth [32%, 31], Hispanic youth [30%, 132], Native American youth [30%, 10], White youth [25%, 2,548]. Missing Data [69]

Law Violations by Charge Level and Age**Figure 3-4 Law Violation Referrals by Charge Level and Age**

Youth aged 15 and 16 years old were responsible for the largest number of misdemeanors and the largest number of felonies. However, youth under age 10 were proportionally the most likely to commit misdemeanors (76% of their violations), while youth aged 17 and older were proportionally the most likely to commit felonies (37% of their violations). Missing Data [7]

Table 3-2 Top Law Violation Referrals

Violations for Assault, Stealing, Property Damage, Dangerous Drugs, and Peace Disturbance accounted for the majority [70%] of major allegations on law referrals. The Top 5 Law Violations remain unchanged from the previous year.

Missing Data [0]

The Top 5 Law Violations for Missouri is also in line with the *2014 National report of Juvenile Offenders and Victims* published by the National Center for Juvenile Justice.² In the United States, Larceny-Theft, Simple Assault, Drug Abuse Violations and Disorderly Conduct accounted for half of all juvenile arrests in 2010.

Note: Juvenile municipal ordinances are listed under status offenses.

Top Law Violations CY18	Frequency	Percentage
Assault	4,173	25.8%
Stealing	2,447	15.1%
Property Damage	1,761	10.9%
Dangerous Drugs	1,570	9.7%
Peace Disturbance	1,359	8.4%
Sexual Assault	754	4.7%

Grand Total	16,160	100.00 %

² (National Center for Juvenile Justice, 2014)

Table 3-3 Law Violation Referrals by Major Allegation and Age Group

Fifty-one percent of all juvenile law violation referrals were committed by youth aged 15 and 16. These youth were responsible for 82% of homicides, 72% of drug charges, 71% of liquor law violations, 65% of robberies, 63% of kidnappings and 55% of stealing referrals. Only promoting obscenity and arson crimes were committed at a higher rate by youth between the ages of 13 and 14. Missing Data [7] **Note:** Juvenile municipal ordinances are listed under status offenses.

Major Allegation	Age Range									Total
	<10	10	11	12	13	14	15	16	>=17

Figure 3-5 Law Violation Referrals by Action Taken
Eighty-two percent [13,165] of law violation referrals were disposed through the informal court process. The remaining 18% required formal court intervention [2,912].
Missing Data [83]

Figure 3-6 Law Violation Referrals by Disposition
The most frequently used methods of disposing law violation referrals were Informal Adjustment with Supervision [20%, 3,157] and Referral Rejected [20%, 3,145]. Allegation Found True With In-Home Services was the most frequently applied formal disposition [9%, 1,516], followed by Allegation Found True-Out-of-Home Placement [5%, 837]. Less than 1% [41] of referrals resulted in petitions for Certification to Adult Court.
Missing Data [83]

Section 4: Status Offense Referrals

Section 4 describes status offense referrals disposed by the juvenile and family division. Status offense referrals made up 30% of all referrals in calendar 2018. A status violation referral is counted as a single behavioral act represented by the most serious allegation charged. However, multiple status offense acts may be associated with a single referral. **Note:** Juvenile Municipal Ordinances are included in Status Offenses.

Source of Referral	Frequency	Percentage
Municipal Police	5,056	37.3 %
School Personnel	4,554	33.6 %
County Sheriff	1,072	7.9 %
Parent	1,000	7.4 %
School Resource Officer	678	5.0 %
Children's Division	515	3.8 %
Juv Court Personnel	292	2.2 %
Other Juv Court	82	0.6 %
Other Relative	82	0.6 %
Other	73	0.5 %
Other Law Enforcement	61	0.5%
Private Social Agency	25	0.2%
Highway Patrol	19	0.1%
Victim or Self	12	0.1%
DMH	7	0.1%
Public Social Agency	5	0.0%
Grand Total	13,547	100.0

Table 4-1 Source of Status Offense Referrals

Forty-six percent of status violation referrals originated from some form of law enforcement agency (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement), primarily municipal police [37%] and county sheriff departments [8%]. Schools [39%] were the second highest referring agency (School Personnel and Resource Officer combined), followed by parents [7%] and Children's Division [4%]. Missing Data [14]

Figure 4-1 Status Offense Referrals by Allegation

Behavior Injurious to Self or Others [31%, 4,155] was the most frequent status offense for which youth were referred, followed closely by Truancy [27%, 3,676]. Muni-Curfew constitutes 4% of status offense referrals, while the remaining Juvenile Municipal Ordinance charges combined account for less than 1% of all status offense referrals. Missing data [0].

Figure 4-2 Status Offense Referrals by Allegation and Sex

Behavior Injurious to Self/Others was the most common allegation for both males [34%, 2,704] and females [26%, 1,446]. An approximately equal percentage of males [14%, 1,150] and females [15%, 806] were referred for Beyond Parental Control and Muni-curfew [Males 4%, 343; Females 3%, 138]. Females were more likely than males to be referred for all of the remaining allegations except Status offense-Other. Missing Data [12]

Note: Due to space constraints, only Muni-Curfew is included.

Figure 4-3 Status Offense Referrals by Allegation and Race

Behavior Injurious to Self/Others was the most common reason to be referred for White youth [34%, 3,409]. Black youth were most frequently referred for Habitually Absent from Home [33%, 970]. Hispanic [34%, 131], and Native American [56%, 18], and Asian/Pacific Islander [44%, 28] youth were most referred for Truancy. Missing Data [105]

Note: Due to space constraints, only Muni-Curfew is included.

Table 4-2 Status Offense Referrals by Allegation and Age

Behavior Injurious to Self/Others was the most common type of referral for youth aged 12 and younger [46%, 1,467] and 13-14 [30%, 1,249]. Youth aged 15-16 years were most commonly referred for Truancy [29%, 1,715]. Youth age 17 and over were referred most often for being Habitually Absent from Home [36%, 115].

Missing Data [1]

	Age Range								
	< 10	10	11	12	13	14	15	16	>=17

Figure 4-4 Status Offense Referrals by Action Taken

The vast majority of status offense referrals [92%, 12,421] were disposed through the informal process, leaving only 8% [1,112] to be disposed through the formal court process. Missing Data [14]

Status Offense Referrals by Action Taken

Figure 4-5 Status Offense Referrals by Disposition

Informal Adjustment, Counseled and Warned [28%, 3,720] was the most frequently used method for disposing status referrals, followed by Informal Adjustment without Supervision [22%, 2,955]. Allegation True with In-Home Services was the most frequently applied formal disposition [4%, 601]. Missing Data [14]

Status Offense Referrals by Disposition

Section 5: Child Abuse and Neglect Referrals

Section 5 describes child abuse and neglect (CA/N) referrals disposed by Missouri's juvenile and family division. CA/N referrals made up 32% of all referrals in calendar 2018. A CA/N referral is counted as a single event, represented by the most serious allegation where a youth is the victim. However, a youth may be the victim of multiple incidences of abuse and/or neglect at the time at which they are referred.

Source of Referral	Frequency	Percent
Children's Division	8,624	59.6%
School Personnel	1,477	10.2%
Municipal Police	1,053	7.3%
Other	878	6.1%
Juv Court Personnel	728	5.0%
Parent	461	3.2%
County Sheriff	349	2.4%
Other Juv Court	206	1.4%
Private Social Agency	123	0.9%
School Resource Officer	87	0.6%
Other Relative	31	0.2%
Other Law Enforcement	22	0.2%
Highway Patrol	16	0.1%
Public Social Agency	14	0.1%
Victim or Self	11	0.1%
DMH	4	0.0%
Total	14,461	100 %

Table 5-1 Source of CA/N Referrals

The source of 60% of all CA/N referrals was Children's Division (CD) of Missouri's Department of Social Services (DSS). Law enforcement agencies (Municipal Police, County Sheriff, Highway Patrol, and Other Law Enforcement) were responsible for 10% of the referrals. Approximately, 11% of the referrals originated from schools (School Personnel and Resource Officer combined).

Missing Data [377]

Child Abuse & Neglect Referrals by Allegation Type

Figure 5-1 CA/N Referrals by Allegation Type

Neglect-Improper Care/Supervision represented 43% [6,225] of all CA/N referrals, followed by Neglect-Other [14%, 2,033] and Neglect-Education [11%, 1,577].

Missing Data [0]

Section 5: Child Abuse and Neglect Referrals

Figure 5-2 CA/N Referrals by Allegation and Sex

Within sex, the percentage of neglect related referrals was nearly equal for males [70%, 5,035] than for females [69%, 5,036]. Conversely, referrals for abuse were slightly greater for females [18%, 1,341] compared with their male counterparts [15%, 1,101].

Missing Data [34]

Child Abuse and Neglect Referrals by Charge Level and Sex

Table 5-2 CA/N Referrals by Allegation and Race

Neglect was the most common type of referral for all youth [71%, 10,098]. Proportionately, Asian/Pacific Islander youth were the most likely minority group to be referred for abuse [35%, 15].

Missing Data [314]

Race/Ethnicity	Juvenile Abuse	Juvenile Custody	Juvenile Neglect	Total
White	1,741	1,377	7,506	10,624
Black	563	456	2,078	3,097
Hispanic	61	37	239	337
Native American	5	4	37	46
Asian/Pacific Islander	15	5	23	43
Grand Total	2,446	1,917	10,098	14,461

Table 5-3 CA/N Referrals by Allegation and Age

The vast majority of abuse, neglect, and custody referrals were for youth 10 years of age and younger [64%, 9,276]. Neglect [70%, 10,098] was the most frequently reported allegation for all age groups.

Missing Data [8]

Age	Juvenile Abuse	Juvenile Custody	Juvenile Neglect	Total
< 10	1,330	1,297	6,649	9,276
10	143	95	554	792

16	154	85	407	646
> = 17	56	24	145	225
Grand Total	2,446	1,917	10,098	14,461

Action Taken for Child Abuse & Neglect Referrals**Figure 5-3 CA/N Referrals by Action Taken**

Fifty-two percent of CA/N referrals were disposed through the formal court process [7,381]. The remaining 48% [6,698] of referrals were handled through the informal court process.
Missing Data [382]

Child Abuse and Neglect Referrals by Disposition**Figure 5-4 CA/N Referrals by Disposition**

Allegation True, Out-of-Home Placement was the most frequently applied disposition [44%, 6,284] to CA/N referrals, followed by Informal Adjustment, No Action [12%, 1,715] and Referral Rejected [11%, 1,634].
Missing Data [382]

Section 6: Assessment & Classification

In 1995, the Missouri General Assembly passed the Juvenile Crime and Crime Prevention Bill [HB 174]. The bill was aimed at reshaping Missouri's juvenile justice system through the development of a comprehensive juvenile justice strategy. As part of the strategy, the Office of State Courts Administrator was charged with coordinating an effort to design and implement a standardized assessment process for classifying juvenile offenders. The result of this effort was the Missouri Juvenile Offender Classification System.

The Missouri Juvenile Offender Classification System includes an empirically validated risk assessment for estimating a youthful offender's relative likelihood of future delinquency and a classification matrix that links the level of risk and offense severity to a recommended set of graduated sanctions. The system also includes a needs assessment for identifying the underlying psychosocial needs of youth.

Since its inception, the Missouri Juvenile Offender Classification system has helped Missouri's juvenile justice professionals to ensure public safety and promote statewide consistency in the services and supervision of youthful offenders.

Section 6 presents information on juveniles with referrals, who were disposed during calendar 2018, and who had risk and needs assessments entered on the **Custom Assessment Maintenance (CZAASMT)** form of JIS. When a referral has more than one associated risk/needs assessment(s), the highest score is reported. When a referral is not associated with any risk/needs assessment(s) in the reporting year, the score associated with the risk/needs assessment that was completed on the nearest date before or after the initial filing date of the referral is the one that is reported, regardless of the year the assessment was completed. Figures 6-1 to 6-3 provide risk level information with Tables 6-1 and 6-2 providing information about the prevalence of individual risk factors. **

***Readers should refer to [Missouri's Juvenile Offender Risk & Needs Assessment and Classification System Manual \(2005\)](#) for the operational definitions of risk and needs factors.*

Weak support system; no positive role models	1,025	5.2
Strong negative or criminal influence	179	0.9

Section 7: Detention Services

Missouri's juvenile and family division of the circuit court includes 17 detention facilities to house youth in need of secure detention. Juvenile justice personnel identify offenders most in need of secure detention using the objective criteria contained in Missouri's Juvenile Detention Assessment (JDTA). In addition, 16 detention centers participate in the Annie Casey Foundation Juvenile Detention Alternatives Initiative (JDAI) [highlighted in table 7-1] for calendar 2018. [The 29th and 32nd circuits also participate in JDAI but do not have detention centers.] JDAI is an effort to assist the juvenile and family division with development and use of community-based alternatives to secure detention when detention is determined to be unnecessary or inappropriate. The initiative emphasizes the collection and application of objective data to identify practices that may contribute to over-utilization of secure detention, detention overcrowding, and disproportionate minority confinement.

Section 7 presents admission, discharge, population, and length of stay information entered on the ***Custom Room Facility Assignment (CZAROOM)*** form of JIS for Missouri's secure detention facilities. Depending on the reporting objective, counts are based on admissions or discharges; a single youth may be counted multiple times if they were detained on more than one occasion.

Table 7-1 Youth Population August 31, 2018

Metropolitan circuits [16, 21, & 22] account for 60% of all youth detained in Missouri as of the last day of August 2018.

Note: Non-JDAI sites with detention facilities are shaded.

Youth Population on August 31, 2018

Grand Total	137	100.0 %

Figure 7-1 Total Admissions by Sex

There were 2,790 admissions to secure detention facilities in CY18. Males [2,223] accounted for 80% of these admissions. Females accounted for the remaining 20% [567].

Missing Data [4]

Total Detention Admissions by Sex

Total Detention Admissions by Race**Figure 7-2 Total Admissions by Race**

White youth accounted for 53% [1,482] of admissions to secure detention facilities while black youth accounted for 42% [1,178]. Hispanic youth accounted for 4% [100] of admissions, while Asian/Pacific Islander youth accounted for 1% [22], and Native American youth accounted for 0.0% [7]. Missing Data [8]

Total Detention Admissions by Sex and Race**Figure 7-3 Total Admissions by Sex and Race**

Among male detainees, white males accounted for the largest number of admissions to secure detention facilities [51%, 1,138], followed by black males [44%, 974]. Among female detainees, white females accounted for the largest percentage of admissions to a detention center [61%, 343], followed by black females [36%, 204]. Missing data [8]

Total Detention Admissions by Age Group**Figure 7-4 Total Admissions by Age Group**

Youth between the ages of 15 and 16 years accounted for the majority of admissions [63%, 1,761], followed by 13-14 year olds [26%, 736]. The age groups of 12 years or younger [5%, 145] and 17 years or older [5%, 151] accounted for the lowest percentage of admissions across age groups. Missing Data [5]

Figure 7-5 Total Admissions by Sex and Age Group

Male youth, 15 to 16 years old, represented the greatest number of admissions to detention facilities [51%, 1,424]. Missing Data [5]

Figure 7-6 Total Admissions by Race and Age Group

White youth, 15 to 16 years old, represented the greatest number of admissions to detention facilities [33%, 931], followed by black youth of the same age group [27%, 746]. Missing Data [4]

Figure 7-7 Average Daily Population by Sex

The statewide average daily detention population was 142. The vast majority [125, 88%] of these detainees were male. Missing Data [4]

Average Daily Population by Race**Figure 7-8 Average Daily Population by Race**

The statewide average daily population for black youth [76] in secure detention was greater than all other youth combined [66].

Missing Data [4]

Average Daily Population by Sex and Race**Figure 7-9 Average Daily Population by Sex and Race**

Within sex, the statewide average daily detention population was greatest for black males [68]. For the female population, white detainees had the highest average daily detention population [9].

Missing Data [4]

Average Daily Population by Age Group**Figure 7-10 Average Daily Population by Age Group**

Within age groups, the statewide average daily detention population was greatest for 15-16 year old youth [97], followed by 13-14 year old youth [35]. The average daily population was the lowest for ages 12 and younger and 17 and older [5].

Missing Data [2]

Figure 7-11 Average and Median Length of Stay by Sex

The statewide average length of stay in detention facilities was 20 days for males and 11 days for females.

Missing Data [5]

Figure 7-12 Average and Median Length of Stay by Race

Statewide, black youth had the longest average length of stay of 22 days. Hispanic and black youth had the longest median length of stay of 8 days.

Missing Data [4]

Figure 7-13 Average Length of Stay by Sex and Race

The statewide average length of stay was longest for black males at 24 days and Hispanic males at 19 days. The average length of stay was similar for Asian/Pacific Islander females and black females at 12 days.

Section 8: Division of Youth Services Commitments

Section 8 presents demographic information on youth committed to the Division of Youth Services (DYS) identified by a docket entry of DDYS – Committed to DYS on the ***Custom Docket Entry and Maintenance (CDADOCT)*** form of JIS in calendar 2018. For circuit level information on these commitments, refer to Appendix M. Assuming commitments to DYS are entered into JIS only once for a youth, the count is unduplicated. (**Note:** Docket entries in JIS produce data different from that historically reported by DYS.)

Figure 9-4 Certification Trends by Race

Since 2010, the number of black offenders certified to adult courts has decreased 68%. From 2017 to 2018, the number of white offenders certified to adult courts increased by 50%. The number of youth offenders certified to adult courts that identify as races other than black or white, has remained relatively unchanged since 2010.

In 2018, the total number of certifications declined by 13%. The number of black youth certified declined by 41% between 2017 and 2018. The number of white youth certified increased by 50% from 2017 and 2018. Since 2010, the number of black youth certified has declined by 68%.

Section 10: Juvenile Offender Recidivism

Juvenile divisions across the country are being asked to provide evidence that public funds are used in cost-effective ways to reduce and prevent juvenile crime. For Missouri juvenile divisions to measure progress in this area, the following statewide definition of juvenile offender recidivism was developed through consensus:

“A juvenile offender recidivist is any youth, referred to the juvenile office for a legally sufficient law violation during a calendar year, who receives one or more legally sufficient law violation(s) to the juvenile or adult court within one year of the initial referral’s disposition date.”

Section 10 presents the demographic and offense characteristics that influenced recidivism rates for the calendar 2017 cohort of Missouri juvenile law offenders who were tracked through calendar 2018 for recidivism.

Offender Population as a Proportion of Missouri Youth**Figure 10-1 Missouri Youth Offender Population**

Approximately 1.3% [8,252] of the 627,393 juveniles aged 10-17 were referred to Missouri's juvenile and family division for legally sufficient law violation referrals in CY17.

Percentage of Youth Recidivating**Figure 10-2 Percentage of Youth Recidivating (All Law)**

Twenty-one percent [1,761] of the 8,252 juvenile law offenders in CY17 recidivated through a new law violation within one year of the disposition date of their initial referral.

Percentage of Youth Recidivating (Felonies or Misdemeanor A)**Figure 10-3 Percentage of Youth Recidivating (Misd A or Felony)**

Fifteen percent [1,194] of the 8,252 juvenile law offenders in CY17 recidivated either with a new Class A misdemeanor or felony offense within one year of the disposition date of their initial referral.

Figure 10-4 Percentage of Youth Recidivating (Felony Charges)

Six percent [531] of the 8,252 juvenile law offenders in CY17 recidivated with a felony offense within one year of the disposition date of their initial referral.

Percentage of Youth Recidivating (Felony Charges)

Figure 10-5 Percentage of Youth Recidivating by Year

The percentage of the recidivists with any law violation decreased by 0.4% between the 2016 cohort and the 2017 cohort. Additionally, the percent of youth who recidivated with either a Class A misdemeanor or felony decreased from 15.5% to 14.5%. The percentage of youth recidivating with a felony increased slightly by 0.3%.

Percentage of Youth Recidivating by Year

Figure 10-6 Percentage of Youth Recidivating by Sex

Males [23%] from the CY17 cohort recidivated at a higher rate than their female [16%] counterparts. This holds true for those who recidivated with either Class A misdemeanor or felony offense, as well as for those who recidivated with only a felony offense.

Percentage of Youth Recidivating by Sex

<p>Percentage of Youth Recidivating by Race</p> <table><thead><tr><th>Race</th><th>All Law Referrals</th><th>Felonies & Class A Misdemeanors</th><th>Felonies</th></tr></thead><tbody><tr><td>White</td><td>19.7%</td><td>12.7%</td><td>5.4%</td></tr><tr><td>Black</td><td>25.4%</td><td>18.7%</td><td>9.0%</td></tr><tr><td>Other</td><td>20.9%</td><td>15.0%</td><td>6.3%</td></tr></tbody></table>	Race	All Law Referrals	Felonies & Class A Misdemeanors	Felonies	White	19.7%	12.7%	5.4%	Black	25.4%	18.7%	9.0%	Other	20.9%	15.0%	6.3%	<p>Figure 10-7 Percentage of Youth Recidivating by Race</p> <p>Proportionately, black youth [25%, 598] from the CY17 cohort had a higher rate of recidivism than their other minority counterparts [21%, 53] and white counterparts [20%, 1,107] for all law referrals. Section 11: Disproportionate Minority Contact (DMC)

Disproportionate Minority Contact (DMC) Initiative

DMC is one of four core requirements of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended in 2002. All states are required by the Office of Juvenile Justice and Delinquency Prevention (OJJDP) to make efforts to document and reduce DMC.

DMC occurs whenever the overall volume of activity for minority youth at various juvenile justice contact points is disproportionately larger than the volume of activity for white youth at those points. It is important to examine *all* juvenile justice contact points due to the likelihood that minority youth will penetrate deeper into the juvenile justice system as a result of disproportionate minority contact with the system.

The existence of disproportionality does not necessarily mean that minority youth are experiencing disparity (or unequal treatment), because further analysis is needed to determine whether or not disproportionality is a consequence of disparities and/or other contributing mechanisms.

What is a Relative Rate Index (RRI)?

The data analysis of the OJJDP Relative Rate Index (RRI) compares the relative volume of activity (rate) for eight court contact points for each minority youth group with the volume of activity (rate) for the majority group (white youth). It provides a single index number that indicates the extent to which the volume of contact differs.

Because the Relative Rate Index is intended to capture the overall extent of youth involvement with the juvenile justice system, the RRI calculation is based on *cases*, not individual *youth*. If a youth is referred to the juvenile court multiple times during the course of a single year, all of those referrals are included. Therefore, the data provided include ***duplicated*** counts for all court contact points.

Example: The RRI comparing rates of referral to juvenile court:

Rate of Referral for black youth:

$$\frac{\text{\# of black youth referred}}{\text{\# of black youth in population}} = \frac{150}{500} = 0.30 \times 1000 = 300$$

Rate of Referral for white youth:

$$\frac{\text{\# of white youth referred}}{\text{\# of white youth in population}} = \frac{200}{5000} = 0.04 \times 1000 = 40$$

Relative Rate Calculation for Referrals:

$$\frac{\text{Rate of Referral for black youth}}{\text{Rate of Referral for white youth}} = \frac{300}{40} = 7.5 \text{ RRI}$$

If the RRI is larger than 1.0, that means that the minority group experiences contact more often than white youth. If it is less than 1.0, that means that contact is less frequent. In this example, the RRI for black referrals is 7.5. This means that black youth are seven and a half times more likely to be referred to the juvenile office than white youth.

With the exception of the first rate (referral), which is calculated using the base of the number of youth in each major racial/ethnic grouping in the general population, each of the subsequent RRI is calculated based on the volume of activity for that racial/ethnic group in a proceeding stage in the case process. See Table 11-1.

Table 11-1: Identifying the Numerical Bases for Rate Calculations

Decision Stage / Contact Point	Base for Rates
Referrals to Juvenile Court	Rate per 1,000 Population
Referrals Diverted	Rate per 100 Referrals
Referrals Involving Secure Detention	Rate per 100 Referrals
Referrals Petitioned	Rate per 100 Referrals
Referrals Resulting in Delinquency Findings	Rate per 100 Petitions
Referrals Resulting in Supervision / Probation Placement	Rate per 100 Delinquency Findings
Referrals Resulting in Confinement in Secure Juvenile Correctional Facilities	Rate per 100 Delinquency Findings
Referrals Transferred to Adult Court	Rate per 100 Petitions Filed

Table 11-2: Relative Rate Index (RRI) Values

Area of Concern	Decision States or Contact Points
More than 1.00	Referrals to Juvenile Court Referrals Involving Secure Detention Referrals Petitioned Referrals Resulting in Delinquency Findings Referrals Resulting in Confinement in Secure Juvenile Correctional Facilities Referrals Transferred to Adult Court
Less Than 1.00	Referrals Diverted Referrals Resulting in Supervision / Probation Placement

Note: RRI values that cause DMC concern can be greater than 1.00 or less than 1.00.

What Data are Used?

- U.S. Census data for youth ages 10-16 in all counties in Missouri. Seventeen year olds were not included, because they are under the jurisdiction of the adult court.
- Census data from the previous calendar year was used, because the Census population updates for the current year are not available at the time of publication.
- Office of State Courts Administrator delinquency data in the Judicial Information System (JIS). Law violation referrals and status referrals (but not child abuse and neglect referrals) were included.
- Transfers to other juvenile court referrals were not included.

What is a Parity Number?

- This is the number of minority referrals that would need to be reduced for the rate of juvenile justice involvement to be statistically equal for white and minority youth.

Table 11-3: 2016 Statewide Relative Rate Indices

Black youth experienced the largest disproportionality overall. Black youth were over-represented at referral, while Hispanic and Asian /Pacific Islander youth were under-represented at that point. Black youth and Hispanic youth were under-represented at supervision. Black youth also experienced disproportionality at: diversion, secure detention, petition, secure confinement, and certification.

Contact Point	Black	Hispanic	Asian / Pacific Islander	Native American
Referral	1.98	0.49	0.24	
Diversion	0.94			
Secure Detention	1.71	1.49		
Petition	1.39			
Adjudication	0.88			
Supervision				
Secure Confinement				
Certification	2.90			

Note: Caution should be used when interpreting the Hispanic data, because race and ethnicity are not separated in JIS. Thus, Hispanic youth are under-counted.

Figure 11-1 Ten-Year Trend of Statewide RRI for Referrals of Black Youth

While the number of referrals has declined over the last decade, the RRI for referrals of black youth has remained relatively steady with the highest in 2013 at 2.3 and the lowest in 2018 at 1.9. The reason for this is that, although referrals declined for all youth from 2010 to 2016, they did not do so evenly across groups in each year.

Section 12: Juvenile Officer Workload

The Juvenile Officer Weighted Workload (JOWWL) system is an automated means of estimating the direct service need for additional deputy juvenile officers in Missouri's 35 multi-county circuits. The JOWWL compares the number of staff hours required to screen and process the status, law, and CA/N referrals received by juvenile divisions and to supervise youth in accordance with the **Missouri Juvenile Officer Performance Standards**, against the actual number of staff hours available to complete these direct service activities. When workload demand exceeds the number of staff hours available to meet it, a need for additional direct service personnel is projected. The Circuit Court Budget Committee (CCBC) adopted and first used the results of the JOWWL for estimating FTE needs for juvenile officers in fiscal 2004. The CCBC has since used the JOWWL annually for this budgetary purpose. In the Spring of 2013 a new workload study was conducted by the National Center for State Courts, and a new model was delivered January 2014. The new model required new methods of retrieving data from JIS pertaining to different activities conducted in Juvenile Courts, including diversion programs. The old model was used until January 2015 until sufficient data had been collected to calculate an annual workload using the new model.

Example of Workload Estimate for Mock Multi-County Circuit

Annual Case-Specific Workload: Annual total work hours required to service juvenile cases at established standards includes screening, processing and supervising delinquency and CA/N cases, based on workload values identified by the 2013 juvenile officer workload study [Table 12-1].

Example: Mock Circuit, 5,264 hours of direct service work are required to accommodate case management demand.

Staffing Demand: Total number of direct service staff needed to meet Annual Case-Specific Workload. (Annual available work hours per Juvenile Office is 1,316)

Example: Mock Circuit, Total Annual Case-Specific Workload / 1,316 hrs. = Staffing Demand (5,264 / 1,316 hrs. = 4.0 direct service staff needed).

Circuit FTE: Total number of direct service staff currently employed by circuit.

Example: Mock Circuit employs 3 direct service staff. Currently this includes all state-paid DJO I & II positions and all full-time staff paid through DYS diversion grant funds.

FTE Need: Additional direct service staff needed to service Total Workload Hours per standards.

Example: Mock Circuit, Staffing Demand – Circuit FTE = FTE Need (4.0 - 3.0 = 1.0 additional direct service staff).

Section 12: Juvenile Officer Workload

Table 12-1 Workload Values per Year from Juvenile Officer Workload Study (2013)		
Section Name	Column Description	Workload Value (hrs.)
Diversion	Diversion	61.20
Status Cases	Screening (Informal/formal)	15.60
	Informal Processing	44.88
	Informal Supervision	24.72
	Formal Processing	49.20
	Formal Supervision: All risk levels	22.56
	Truancy Court	78.72
Law Cases	Screening (Informal/formal)	22.80
	Informal Processing	47.04

	Court Related Activity	27.12
Alternatives to Detention	Alternatives (All Types)	14.52

Table 12-2: Juvenile Officer Weighted Workload CY 18

[illegible]

Section 13: CA/N Time Standards

In March 2005, the Supreme Court of Missouri issued an order adopting Court Operating Rule (COR) 23.01, Reporting Requirements for Child Abuse and Neglect Cases, effective July 1, 2005. This COR requires the presiding judge in each circuit to submit a quarterly report (CA/N Quarterly) to OSCA. The CA/N Quarterly Report lists all child abuse and neglect hearings where standards were not met during the quarter. These standards are based on the requirements of Supreme Court Rule 124.01, Rules of Practice and Procedure in Juvenile Divisions and Family Court Divisions of the Circuit, which states that the following hearings shall be held:

- 1) Within three days, excluding Saturday, Sunday and legal holidays, a protective custody hearing
- 2) Within 60 days, an adjudication hearing
- 3) Within 90 days, a dispositional hearing
- 4) Every 90 to 120 days after the dispositional hearing during the first 12 months in which the juvenile is in the custody of the children's division, a case review hearing
- 5) Within 12 months and at least annually thereafter, a permanency hearing
- 6) As often as necessary after each permanency hearing, but at least every six months, during the period in which the juvenile remains in the custody of the children's division, a permanency review hearing.

The data from each circuit are compiled into a final report and submitted to the Chief Justice of the Supreme Court of Missouri and the Commission on Retirement, Removal and Discipline.

Table 13-1 CA/N Hearings Held Timely

In FY18, the juvenile and family divisions conducted the required CA/N hearings in a timely fashion. Thirty-nine divisions held 95% or more of their hearings on time; while at the statewide level, 96% of hearings were held timely.

Circuit	Hearings Held	Hearings Held Timely	Percent Held Timely

Section 14: Juvenile Officer Performance Standards

In February of 2014, Missouri’s chief juvenile officers convened to discuss concerns as to consistency of practice throughout the state and proposed juvenile justice reforms in the context of the potential positive impact versus the unintended consequences of the same. There was clear consensus by the group that it was incumbent upon each juvenile officer to ensure, on an individual and collective basis, the highest standards of professionalism and accountability in carrying out not only the statutory duties of the juvenile officer but in fulfilling the ethical obligation of the juvenile officer to ensure “excellence” as the standard for responsiveness and the provision of services to the children, youth, and families served by the juvenile office in each community.

It was that consensus that led to a collective request of the state courts administrator in March of 2014 to allow an extensive review and revision of the Revised Missouri Court Performance Standards for the Administration of Juvenile Justice (2004).

The request was approved and the Missouri Juvenile Standards Work Group was established in April of 2014 to serve as the steering committee for the standards review. By design, the steering committee consisted primarily of chief juvenile officers as the work of the group intended to deal with in-depth case management processes in the juvenile office as managed by or on behalf of the chief juvenile officer. There was a strong belief and sense of ownership by those agreeing to serve on the Missouri Juvenile Standards Work Group that the burden of necessary corrections to practice and accountability for the same rested with the juvenile officers and the juvenile officers should be responsible for “carrying the water” on the process and complete the associated tasks on behalf of the profession. Thereafter, the work to create new and more specific standards for the juvenile officer was undertaken by the work group and the subcommittees. Additional input from stakeholders in the juvenile justice system was also a critical element in the process. The result of this process was a recommendation for performance standards for juvenile officers.

After reviewing the recommendations by the Missouri Juvenile Standards Work Group, and in the exercise of the authority under section 211.326, RSMo, the state courts administrator has

adopted the attached Missouri Juvenile Officer Performance Standards (2017) which are intended to provide guidance and direction as to the legal mandates and ethical obligations of the juvenile officer in meeting challenges of the multifaceted and important role in the juvenile justice and child welfare systems and to elevate practice and accountability in each juvenile office. The implementation strategy of the new standards integrates the aspirational values and intent of the existing standards with performance based standards that address current and emerging issues in juvenile justice and child welfare.

The Missouri Juvenile Officer Performance Standards (2017)** represent clearly defined and communicated operational standards for the juvenile officer, a framework for greater consistency in practice throughout the state, a mechanism for improved and informed service provision for those in need, and broader implementation of best practices. This is a substantial step in the facilitation of fair and equitable treatment for all persons receiving services from the juvenile officer and creates a systemic connection for each juvenile office to the overall mission and purpose of the Missouri's juvenile justice system and child welfare systems. These standards represent the commitment of the profession to promoting the best possible outcomes for children, youth, families, stakeholders, and communities served by the juvenile officer and improving public trust and confidence in the role of the juvenile officer in Missouri's juvenile justice system and child welfare systems.

The Missouri Juvenile Officer Performance Standards Oversight Workgroup was established in 2017 by the State Courts Administrator to aid in the implementation of the standards and to monitor compliance. The workgroup established a three phase process to assess compliance that included a first year self-assessment. The results of the year one self-assessment are reported in this section and subsequent years will include a community assessment and a technical assessment to ensure full implementation and compliance with each requirement of the standards and will be reported accordingly.

***Readers should refer to [Missouri's Juvenile Officer Performance Standards \(2017\) Manual](#) for the full list of standards under each category listed below.*

<p>Table 14–1 Juvenile Officer Performance Standards Compliance Assessment Section 1</p> <p>Section 1 includes Administrative Standards for the Juvenile Officer, focusing on 20 general performance areas.</p> <p>On average, 79% [37] of Juvenile Offices self-reported substantial compliance, 14% [7] reported partial compliance, and 6% [3] reported non-compliance for all measures in Section 1. Missing Data [0]</p>	Section 1 CY18	Substantial Compliance	Partial Compliance	Non Compliance
	1.1 General Policy & Procedure	34 (74%)	8 (17%)	4 (9%)

Section 15: Juvenile & Family Division Programs and Diversion

Juvenile Officers across the state of Missouri provide a variety of programming to youth and their families on a daily basis to address their particular risk and needs. These programs are intended to decrease recidivism, promote accountability, enhance community safety, enhance child and family safety, and teach prosocial behaviors. The programs detailed below are programs that have been documented in the Justice Information System.

These programs are categorized into several main areas listed below:

- **Accountability Programs:** These programs primarily try to teach youth how to take responsibility for their actions and empower them to develop more prosocial behaviors at home, school, and in the community.
- **Alternative Court Programs:** These are specialty court dockets or programs that are meant to address a specific problem area for youth and provide accountability, education, and resources for a specific issue.
- **Anger Management/Conflict Resolution Programs:** These programs are meant to teach youth how to effectively identify their anger and manage it appropriately in a variety of social settings.
- **Diversionary Programs:** Diversionary Programs are programs that are meant to divert youth from various entry points into the juvenile justice system. Diversion programs are divided into four levels based on the time that the offense is committed by the juvenile and when the juvenile participates in the program.
 - Level one diversion programs are used to completely prevent unnecessary referrals from coming to the juvenile office.
 - Level two diversion programs are used when the actions of a juvenile could result in a referral to the juvenile officer.
 - Level three diversion programs divert youth referred to the juvenile court from formal court action into appropriate community based programs.
 - Level four diversion programs divert youth referred to the juvenile office from secure confinement or commitment to the Missouri Division of Youth Services so that they can remain in the community.

- **Gender Specific Programs:** These programs provide prosocial interventions and education specific to the needs of boys or girls that are involved with the juvenile justice system.
- **Health and Fitness Programs:** These programs are meant to promote the overall health and well-being of youth referred to the juvenile justice system.
- **Mental Health Programs:** These programs provide a variety of mental health services to a youth or their family that address both the internal and external issues that may be contributing to problematic behaviors by youth.
- **Monitoring Programs:** These programs primarily monitor the whereabouts and activities of youth to promote community safety according to a youth's risk level.
- **Parenting Education and Support Programs:** These programs are meant to provide education, resources, and support to parents or guardians whose children are involved in either the juvenile justice system or child welfare system.
- **Problem Sexual Behavior and Offending Programs:** These programs are meant to provide education and support to youth referred to the court for problem sexual behaviors or sex offenses to try to prevent re-offense and promote more prosocial thought patterns.
- **Prosocial Juvenile Programs:** These programs created by juvenile officers are innovative and may fit into several categories.
- **School and Academic Related Programs:** These are programs that are meant to promote success for youth in school and the educational setting.
- **Sexual Education Programs:** These programs are meant to provide overall education and support to youth involved with the court to improve their health and who are at risk for pregnancy, sexual violence or receiving a sexually transmitted infection.
- **Substance Abuse Programs:** These are programs that are meant to provide education, treatment, and support to youth who have been referred for substance related offenses or identify as having a substance abuse problem.
- **Victim Education and Restorative Justice Programs:** These are programs that are meant to provide education to youth regarding the impact of their offense on the victim and promote empathy for the victim. These programs further provide services that are meant to restore for the victim what has been done wrong by the juvenile.
- **Vocational and Life Skills Development Programs:** These are programs that meant to teach youth skills that can help them demonstrate socially appropriate behaviors and gain and retain employment in the community.

During CY2018, over 22,000 youth have been referred to and participated in a variety of programs and services offered by juvenile offices across the state. This section highlights several programs submitted by various juvenile offices around the state and serve as examples of the wide range of beneficial programs and services available to Missouri youth involved with the juvenile justice system.

- **Juvenile Office Community Service/Restitution Program:** One of the consistent primary barriers to implementing restorative justice principles into probation case work for the Second Circuit has been that families do not have the finances to pay for restitution in cases of shoplifting or other stealing offenses, property damage, etc. The youth are often too young to be able to get formal jobs, or are engaged in schooling, treatment, and supervision restrictions to the point that regular employment cannot be obtained.

The Second Circuit Juvenile Office has set aside funds to specifically address this problem out of the annual budget. The program allows adjudicated youth to be ordered to complete community service hours in order to earn restitution credit, up to \$250 per victim. This allows the youth to perform acts that improve the community or aid existing non-profit organizations, while also having a tangible sanction for their behaviors. Further, and most importantly, the youth get to do the manual work themselves to earn back the restitution and help repair the harms that their actions caused. The hourly rate is set by the Court Services Administrator, and is less than minimum wage as required by law.

In 2018, the Juvenile Office ordered twelve youth to participate in the program, mostly for offenses of stealing and property damage. While the program does have financial limitations that inhibit possible increased effectiveness, the ability of multiple youth to engage in even limited restorative justice practices has increased probation success rates, built rapport with the juveniles families, and has also increased the community reputation for the office and the youth we serve as they do good work in community beautification projects and trash cleanup in visible areas.

- **Education Court Program:** The 17th Judicial Circuit launched an Education Court program in the fall of 2018 targeting students in Kindergarten through sixth grade who have poor school attendance. Local elementary schools are responsible for identifying qualified participants, typically students with less than 85% attendance. The school sends a referral to the Juvenile Office and a Deputy Juvenile Officer is responsible for setting up a meeting with the Education Court team. The Education Court team consists of a Judge, the school principal and counselor, a School Resource Officer, a Children's Division worker, and the Deputy Juvenile Officer.

The goal of Education Court is to work with families to prevent future truancy and/or educational neglect referrals. At each Education Court meeting, the team works to understand any issues or barriers the family may be experiencing. The team then works together to help the family overcome those barriers, be it getting an alarm clock, fixing a car, or finding a neighbor to help walk the student to school. Presiding Circuit Judge William Collins and Associate Circuit Judge Stacey Lett sponsor the program. Thus far, 15 families have successfully completed the program in Cass County and two families have successfully completed the program in Johnson County.

- **Team Support Approach:** In the 22nd Circuit, The Team Support approach (TSA) is utilized to bring the youths' families, community members, caregivers, service providers and agency staff together to make strength-based plans that will provide for the youth's safety, repair harm to the victim or community, and promote accountability through strengthening competency skills.

The meeting is run by a trained facilitator that assures that each participant is engaged in the discussion and has the opportunity to state a view of the case, including an opinion on the recommendation reached. The youth has a voice in their plan and when possible, the family and community's strengths are used to form treatment plans that will enable children to safely remain home with appropriate services. When this is not possible, plans are made that reflect the least restrictive placement possible for each youth that will keep the child safe as well as preserve and nurture the child's familial and community connections. Since 2015 when this program began, 160 youth under supervision of the court have been able to participate in the TSA program.

- **Youth Coding League:** In the 32nd Circuit, The Youth Coding League is a phenomenal program designed by the Marquette Technology Institute and utilizes the curriculum from the CS First website with the goal of allowing youth (9-14 years of age) an exciting way to learn computer skills necessary for their future. Stacy Lane, Community Director for Codefi, says this program is "designed to give kids with no prior computer programming or coding knowledge a solid foundation in logic and problem-solving."

During this sixteen week league, students work at the Juvenile Office once a week for about two hours at a time. At the conclusion of each lesson, youth must answer activity questions forcing them to think critically about the skills they learned. After completing the eight activities in the specific curriculum chosen, youth are put into teams for a group project displaying what they have learned over the semester. These group projects will be voted on first by the other students in their school, and then by students from other schools and the community.

In fall 2018, we had seven youth who were currently or previously involved in the foster care system participate in the league. The next semester, almost every youth asked to participate again with the addition of one new student. None of the eight students involved in the Youth Coding League have had any referrals to our office for delinquency or status offenses since being in the program.

- **Students on the Right Track (SORT):** Similar to Big Brothers/Big Sisters the 33rd Circuit implemented Students on the Right Track (SORT). The goal of SORT is to get at-risk juveniles off of the street during the evening and night hours, get them around positive influences and, teach them life skills. This program contains several aspects which include, but are not limited to: tutoring, cooking education, guest speakers, mentoring, and recreational time.

The program lasts approximately 16 weeks and meets one night a week at three different locations in Charleston, Sikeston, and Scott City. In 2018, 77 youth were assigned to this program and 33 out of 44 youth successfully completed the program in 2018. According to Chief Deputy Juvenile Officer Phillip Warren, “We cannot remove every at risk juvenile from their negative home and environmental situations and we cannot fix every home situation. What we can do is limit the amount of time we are allowing our at risk youth to be exposed to negative home and environmental situations, surround them with positive relationships, connect them with future employers and teach basic life skills.”

- **Foster Youth Day Trip:** The 37th Circuit has facilitated an annual fun day trip for foster care youth. Youth have visited places such as Silver Dollar City amusement park, Incredible Pizza, and Fritz Adventures in Branson, Missouri.

This program is funded through donations from a local community group. Since the program’s inception, 425 foster care youth have been able to participate in this program. According to Chief Juvenile Officer Jordan Land, this program has been a really positive event for kids in foster care that the local community supports.

- **Truancy Court:** In January, 2015 Judge Craig Carter began the implementation of Truancy Court for the 44th Judicial Circuit. Meetings with school officials from 14 schools districts in Wright, Douglas and Ozark County Schools confirmed the need to deal with students who habitually miss classes with un-excused absences, and those who were tardy to school consistently. The purpose of this new court system is to decrease the number of absences and tardiness; improve student grades; increase the appreciation of education, and to increase the student's self-worth and feeling of accomplishment.

Currently, there are 32 student participants in this court currently and the program has served approximately 275 youth since its inception. The interaction between the judge, juvenile officers, school officials, the student, and the parents has proven much more effective in promoting regular and timely attendance.
